GREEN LION INNOVATIONS

Green Lion Innovations delivers end-to-end product solutions from sourcing and design to manufacturing and launch, helping brands bring products to market quickly, efficiently, and at scale.

With deep expertise in hardware development, manufacturing, and supply chain management, GLI specializes in building high-quality, custom-branded products to any customer's need. We have successfully exported and imported products around the world, including within highly-regulated markets.

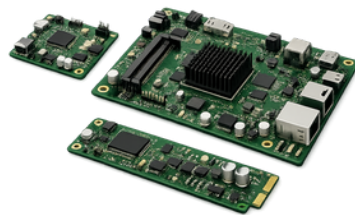

We take a tailored approach to every project, aligning design, execution, and production with your brand, market, and customer expectations so your product launches right, the first time.

COMPLEX MANUFACTURING SERVICES

End-to-end manufacturing coordination from concept development through scaled production with quality assurance and supply chain optimization ranging from simple products to complex electronics.

- **Custom product design and prototyping**
- **Dedicated and trained assembly lines**
- **Third-party QC validation**
- **Raw materials upstream visibility**
- **Redundant factory support**

Our vetted factory network and technical project management enable seamless coordination of complex builds while our quality systems and redundant sourcing strategies protect your production timelines and ensure consistent output across manufacturing partners. Manage an international supply chain with domestic partners.

PCBAs

Prototyping

Final QC Test Plan

Basic parameters test

Item	Test Items	Test Equipment	Test Standard
1.1	Appearance	/	No missing, incorrect installation, cracks, bruises, crooked installation, or incomplete installation.
1.2	Main size	Caliper	
1.3	Main requirement	Electronic scales	Device weight
1.4	Heating coil resistance	URC bridge	1.20

Quality Control

Assembly

DISPOSABLES

Custom-engineered disposable solutions designed to enhance performance, ensure consistency, and accelerate speed to market.

- **Quick turn around times**
- **Competitive pricing**
- **Large selection**
- **Custom specifications**

We simplify the disposable supply chain so you can focus on growth. Transparent pricing, direct sourcing, and rigorously vetted manufacturing partners ensure predictable costs, reliable delivery, and uncompromising quality.

GLID 0104 /05

GLID-0106/07

GLID-0202

GLID-0207/08

CARTRIDGES

Precision-engineered cartridge solutions delivering exact spec control, consistent vapor performance, and scalable production—without off-the-shelf limitations.

- **Quick turn around times**
- **Competitive pricing**
- **Large selection**
- **Custom specifications**

From pilot runs to national rollouts, our cartridge solutions scale seamlessly. Precision engineering, consistent vapor delivery, and dependable supply chains ensure you never compromise performance for growth.

GLIC-0101/02

GLIC-0401/02

GLIC-0403

GLIC-0601

BATTERIES

Factory direct 510 battery programs engineered for durability, repeatable performance, and scalable production ensuring dependable supply, controlled costs, and seamless integration with your cartridge platform.

- **Custom branding options**
- **USB C fast charging**
- **Button or draw activation**
- **Integrated safety protections**

Engineered for universal compatibility and dependable power delivery, our 510 battery platforms ensure consistent performance across every cartridge. With controlled manufacturing and rigorous quality testing, we deliver reliability your customers feel with every draw.

INJECTION MOLDING/CNC

Precision-engineered high-volume components from prototype through production with optimized tooling and manufacturing processes for cost and consistency.

- **Medical and consumer-grade materials**
- **Rapid tooling development**
- **Multi-cavity mold optimization**
- **Scalable production volumes**
- **Tight tolerance capabilities**
- **Factory-direct tooling ownership**

Our established tooling partnerships and technical manufacturing expertise deliver cost-effective mold development ensuring parts meet specifications and perform reliably in final assemblies at high volumes and in extreme performance conditions.

Silicone Molded Products

CNC/Metal Milling

Mold Design/Manufacture

INDUSTRIAL AND UNIT PACKAGING

Custom packaging engineered for need, premium quality standards, and direct-to-factory pricing. Complete design and material flexibility.

- **Sustainable and traditional materials**
- **Quick samples turnaround**
- **Range of finishing options for optimal presentation**
- **Factory-direct cost savings**

GLI's factory relationships and manufacturing scale deliver the lowest possible pricing paired with our proven expertise across diverse product categories ensures your packaging protects products through distribution and captures attention at retail.

Gift Box Packaging

Sustainable Materials

Glass and Plastic Jars

Complex Packaging

CUSTOM BRANDED ACCESSORIES

Factory direct curated accessory programs help strengthen brand loyalty, enhance retail presentation, and create a cohesive consumer experience across your product portfolio.

- **Factory direct pricing**
- **High quality accessories**
- **Quick turnaround times**
- **Custom branded**

We have years of experience sourcing the highest quality rolling trays, grinders, lighters, hot knives, and other dabbing tools, along with premium production glass designed to elevate your brand presence.

Lighters

Rolling Tray/Cones/ Funnel

Grinders

Mini Hot Knife

BRANDED MERCHANDISE

Custom promotional products and brand essentials that extend your marketing reach and strengthen customer loyalty with minimal cost or design effort.

- **Apparel and headwear**
- **Functional accessories**
- **Drinkware and barware**
- **Lifestyle products**
- **Trade show materials**
- **Bulk order pricing**

Our direct manufacturer relationships provide access to trending promotional items and proven bestsellers while our factory vetting process and quality control protocols ensure only premium merchandise reaches your customers.

Hats

T Shirts & Hoodies

Tote Bags

Cups & Coasters

FURNITURE FOR EVENT RENTALS

Premium tables and chairs at affordable prices that elevate your event experience and keep clients happy and comfortable.

- **Tested and approved quality**
- **Metal or Vinyl table siding**
- **Color and Seat options for chairs**
- **All standard sized tables available**

Our direct sourcing relationships keep costs low and transparent: every piece is priced with freight and import included, delivered straight to your door, and backed by over five years of rigorous quality control and in-field use.

Round Tables

Rectangle Tables
